EXPERIENCE

UX/UI Designer | Iluni
Apr 2025 - Feb 2026

Leading end-to-end design across the platform. Collaborate with PO and engineering team to optimise critical user flows, significantly reducing friction, lowering the # of support tickets and improving overall user satisfaction.

UX/UI Designer | Founders Founders
Nov 2024 - Feb 2025

Led the full UX process for the company website. Collaborated with business, marketing and community teams to ensure design met both user needs and business goals. Following the redesign, the new incubation program reached full capacity, attracted new scaleups to the community and is launching its second edition.

Account Manager | Hilti Portugal
Jun 2022 - Dec 2023

Led customer relationship strategy within my territory, combining structured planning with field research to deeply understand client workflows, pain points and performance constraints. Conducted on-site testing and needs analysis, translating insights into solution recommendations that improved efficiency and drove measurable business growth.

Technical Designer | Metalogalva
Feb 2019 - May 2022

Designed complex structural solutions, translating technical requirements into production-ready outputs while balancing feasibility, material constraints and efficiency. Collaborated with engineering and production teams to optimise structural performance, reduce production errors and improve overall process reliability.
